### YOU AND YOUR STORE BILL

We hear a great deal every day about not selling your grain on account of falling prices. This is a matter vital to us as well as to you. The question is what is to be done under the circumstances.

In the first place we want it understood that we realize fully the position you are in and no one is more anxious than we, that you should receive the highest returns for your labor. But you are in no different position from the rest of us. We must all pay our debts and surely that applies to a farmer as well as others. Practically every retailer gives you credit, often in large amounts, and running over long periods of time. These credits are given with the understanding that when your crop is harvested, you will pay. On no other basis could we do it and continue in business. If you will not sell sufficient to pay your retail merchant how can we our wholesaler.

Another thing, we have had an era of high prices. We all kick at the cost of living. With the return of normal conditions, prices are bound to come down. This will apply to grain as well as other commodities, and you must face these changed conditions as well as we. The truth is that wheat prices especially are speculative. What assurance has any one that the price may not be even lower later on. And if you want to take that chance, have you a right to do so while your accounts are unpaid. Should you speculate with money that really belongs to your retailer or to his wholesaler.

So far as we are concerned our own necessities are no great that we must insist that our customers whose accounts are overdue, sell something and pay. We are always willing to help reasonably and at the proper season but we have to pay and we cannot do it unless you do.

### CROSSFIELD DISTRICT CO-OPERATIVE ASSOCIATION U.F.A. LIMITED.

We wish to take this opportunity to inform those who use Cylinder Oil, that our Contract with the Imperial Oil Co. Ltd. expires on December 31st, 1920.

Under this Contract we are able to sell Polarine for \$1.20 per gallon, which to-day would cost us \$1.55 per gallon if it were not for the Contract.

You will be making big interest on your money to purchase a barrel or two of this oil before December 31st, even if you do not use it until next Summer.

**Don't pass up this opportunity as it means money to you.**

## The Cabinet and Parliament

In order to arrive at a clear understanding of forms and functions of government in Canada it is first of all necessary to have a correct appreciation of the relation which the Cabinet of Ministers has to Parliament. It is a common error for people to call upon the Cabinet, or Government, as it is popularly termed, to do certain things and take certain action which it has no power to do and which power rests exclusively with Parliament itself.

It will perhaps lead to a clearer conception of the functions of the Cabinet, or Government, if it is likened to a board of directors of a Company with Parliament as representing the whole body of shareholders. All the rights, privileges and powers of a Joint Stock Company are conferred upon the shareholders. These shareholders select from among their own number a board of directors to whom is entrusted the management and administration of the Company's business. The directors make rules and regulations for the management of the business, choose the employees, and constitute the active directing head of the business. They make recommendations and reports to the shareholders, and so long as they enjoy the confidence and support of a majority of the shareholders they govern and direct the Company's affairs. But once the directors lose the confidence and support of the shareholders, they are replaced by others possessing that confidence and support.

It will be seen, therefore, that the directors can only exercise such powers as have been conferred upon them by the shareholders. In other words, the directors are but a committee of the shareholders. So too, the Cabinet merely an executive and administrative committee of Parliament, and it is restricted to the exercise of such powers as Parliament has delegated to and conferred upon it. Parliament alone can pass laws; the Cabinet cannot do so. Hence Governments are frequently asked by individuals and delegations to do things which they cannot do because the Acts passed by Parliament do not authorize such action.

The Cabinet has the power to make regulations for the proper carrying out and administration of Acts passed by Parliament and to issue Orders-in-Council under those Acts, but it cannot vary the provisions of the Acts nor go beyond the powers conferred by the Acts. The Government, too, is restricted in the expenditure of money to the amount voted by Parliament, except in cases of emergency arising when Parliament is not in session.

In such cases a special warrant of the Governor-in-Council must be issued to cover such unforeseen expenditure, and immediately upon the re-assembling of Parliament in session, such expenditure must be reported to and approved by it. If such approval is refused, the Government must resign. In like manner should an amendment in excess of any appropriation made by Parliament be expended, a supplementary estimate must be obtained from Parliament to cover such over-expenditure.

Acting as the executive and administrative committee of Parliament, the Cabinet Ministers constitute the advisers of the Crown, and the Ministers are responsible to Parliament for all such advice tendered. If the advice is bad, the Ministers, not the Crown, must suffer the consequences. Furthermore, the Crown is precluded from accepting advice from any other source. Should such advice be tendered, it is the duty of the Crown to submit it to the Prime Minister as head of the Government, and the Government, not the Crown, is responsible for its final acceptance or rejection.

What is here outlined in regard to the Dominion Government and Parliament applies in like manner to the Provincial Governments and the Legislative Assembly.

The analogy drawn above between the board of directors of a Company and the shareholders on the one hand, and the Cabinet and Parliament on the other, is not absolutely correct, because whereas in Company Management the shareholders possess all the power, Parliament is but representative of the people who, in the last analysis, are the shareholders of Canada, and the people are, therefore, the final court of appeal in all matters of government. However, the people delegate their powers to their representatives in Parliament and, therefore, to all intents and purposes, the analogy holds good.

In the next article in this series consideration will be given to the division of authority between the Dominion and the Provinces, a division which is frequently the cause of misunderstanding leading to demands on Provincial Governments and Legislatures for action in regard to matters over which they have no control but which come within the sole jurisdiction of the Federal authority.

### Health In Humor

Possibly there are doctors with a depressing manner, but we fancy they are exceptional cases, and most people who have ever lain on a sick bed will gratefully recognize what they owe to the brightness and hope their medical attendant has brought with him. The pity is that other physicians and other patients do not learn from the doctor the health-giving qualities of cheerfulness. It is a remedy the world needs more than ever just now for its manifold ills.—Yorkshire Post.

**Alberta Cattle Winter in Okanagan.** An interesting experiment will be conducted at the Experimental Farm in the Okanagan with 50 head of young cattle, which have been brought from Calgary ranches for winter feeding and will be fitted for market by spring. In the feeding of these cattle a test will be made of the comparative value of sunflower and corn silage; half will be fed with sunflowers and the other half with corn. The relative building values of these foods will therefore be determined.

## Farmers and Motors

### One-Third of the Automobiles in U.S.

#### Owned by Farmers.

Seven and a half million motor cars are reconstructing America, and one-third of the owners are farmers. The largest percentage of increase in automobile registration has been in the cotton-growing sections of the south. These points are revealed in "Facts and Figures," an annual published by the National Automobile Chamber of Commerce.

Following the Civil War was the day of the railroad, when vast territories were opened up with a resulting increase in prosperity. Following the World War has come a marked increase in motor trucks and passenger automobiles. 316,364 motor trucks were built during 1919, an increase of 39 per cent. over 1918.

## WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little one she would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beauregard, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont."

### Canada Is Land Of Promise.

The British Overseas Settlement Committee, according to advices from London, has received nearly 50,000 applications from ex-service men and women for emigration to all parts of the Empire. About one-fifth of the applications are women who intend to take up domestic or land work. Canada is the favorite destination. Between 6,000 and 7,000 applicants express a preference for this country, while Australia, New Zealand and South Africa are next in order of popularity. With dependents the total involved is well over 100,000 persons. The lists for ex-service men close December 31, and applications are now pouring in at the rate of 1,000 a week.

## For Protection of

### Lake Shipping

Great Lakes Are Now to Have Wireless Compass Depots.

Wireless compass stations, similar to those which have been in successful operation on the North Atlantic coast for more than a year, are to be installed along the Great Lakes. These stations, operated by the U.S. Navy Department, enable the operators to give ships lost in a fog their positions within a narrow radius of accuracy.

Fogs on the upper lakes have claimed one freighter and 30 lives as victims this year, and the record of previous years shows a heavy toll of shipping. Success of the system on the Atlantic coast led to its recent installation on the Pacific and now, it is announced, the inland waters will be similarly protected.

## Eggs and Civilization

The Egg Contains the Vital Principle Of Growth of the Body.

The world has grown better since the discovery of the egg and the growth of civilization has kept pace with the growth of the egg-eating habit—two contemporaneous facts, though their exact correlation may not be capable of demonstration. But from the facts of the case we may be warranted in concluding that a still greater consumption of hens' eggs would not hinder the coming of a more civilized world. Why should not the facts be correlated when the egg contains the vital principle of growth of the body and also a substance that nourishes the brain—an article of food that is responsible for both body growth and mental quickening? Why should we not eat more eggs and look for a higher civilization?—James Dryden.

The analogy drawn above between the board of directors of a Company and the shareholders on the one hand, and the Cabinet and Parliament on the other, is not absolutely correct, because whereas in Company Management the shareholders possess all the power, Parliament is but representative of the people who, in the last analysis, are the shareholders of Canada, and the people are, therefore, the final court of appeal in all matters of government. However, the people delegate their powers to their representatives in Parliament and, therefore, to all intents and purposes, the analogy holds good.

In the text article in this series consideration will be given to the division of authority between the Dominion and the Provinces, a division which is frequently the cause of misunderstanding leading to demands on Provincial Governments and Legislatures for action in regard to matters over which they have no control but which come within the sole jurisdiction of the Federal authority.

### Health in Humor.

Possibly there are doctors with a depressing manner, but we fancy they are exceptional cases, and most people who have ever lain on a sick bed will gratefully recognize what they owe to the brightness and hope their medical attendant has brought with him. The pity is that other physicians and other patients do not learn from the doctor the health-giving qualities of cheerfulness. It is a remedy the world needs more than ever just now for its manifold ills.—Yorkshire Post.

### Alberta Cattle Winter in Okanagan.

An interesting experiment will be conducted at the Experimental Farm in the Okanagan with 50 head of young cattle, which have been brought from Calgary ranches for winter feeding and will be fitted for market by spring. In the feeding of these cattle a test will be made of the comparative value of sunflower and corn silage; half will be fed with sunflowers and the other half with corn. The relative building values of these foods will therefore be determined.

## Farmers and Motors

### One-Third of the Automobiles in U.S.

Owned by Farmers. Seven and a half million motor cars are reconstructing America, and one-third of the owners are farmers. The largest percentage of increase in automobile registration has been in the cotton-growing sections of the south. These points are revealed in "Facts and Figures," an annual published by the National Automobile Chamber of Commerce.

Following the Civil War was the day of the railroad, when vast territories were opened up with a resulting increase in prosperity. Following the World War has come a marked increase in motor trucks and passenger automobiles. 316,364 motor trucks were built during 1919, an increase of 39 per cent. over 1918.

## WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little one a stable would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beauregard, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to have a box of the Tablets. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont."

### Canada Is Land Of Promise.

The British Overseas Settlement Committee, according to advices from London, has received nearly 50,000 applications from ex-service men and women for emigration to all parts of the Empire. About one-fifth of the applications are women who intend to take up domestic or land work. Canada is the favorite dominion. Between 6,000 and 7,000 applicants express a preference for this country, while Australia, New Zealand and South Africa are next in order of popularity. With dependents the total involved is well over 100,000 persons. The lists for ex-service men close December 31, and applications are now pouring in at the rate of 1,000 a week.

**Nation-wide Fame.**—There is scarcely a corner of this great Dominion where the merits of Dr. Thomas' Electric Oil have not been tried and proved. It is one of the world's most efficient remedies for sore throat, lame back and many other ailments arising from inflammation. Rubbed on the skin its healing power is readily absorbed, and it can also be taken internally.

It isn't likely that Solomon succeeded in convincing all his wivings that a word to the wise was sufficient.

## For Protection of Lake Shipping

### Great Lakes Are Now to Have Wireless Compass Depots.

Wireless compass stations, similar to those which have been in successful operation on the North Atlantic coast for more than a year, are to be installed along the Great Lakes. These stations, operated by the U.S. Navy Department, enable the operators to give ships lost in a fog their positions within a narrow radius of accuracy.

Fogs on the upper lakes have claimed one freighter and 30 lives as victims this year, and the record of previous years shows a heavy toll of shipping. Success of the system on the Atlantic coast led to its recent installation on the Pacific and now, it is announced, the inland waters will be similarly protected.

## Eggs and Civilization

### The Egg Contains the Vital Principle Of Growth of the Body.

The world has grown better since the discovery of the egg and the growth of civilization has kept pace with the growth of the egg-eating habit—two contemporaneous facts, though their exact correlation may not be capable of demonstration. But from the facts of the case we may be warranted in concluding that a still greater consumption of hens' eggs would not hinder the coming of a more civilized world. Why should not the facts be correlated when the egg contains the vital principle of growth of the body and also a substance that nourishes the brain—both body growth and mental quickening? Why should we not eat more eggs and look for a higher civilization?—James Dryden.

## ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Rheumatism, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nine-tenths of the years. Now made in Canada. Handy tin boxes containing 10 tablets each, 25c and 50c. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark registered in Canada, of Bayer Manufacturing of Mannheim, Germany. It is well known that Aspirin is a poison and that Bayer's Aspirin will be stamped with their special trade mark, the "Bayer Cross."

## Heals Inflamed Nostrils, Stops Catarrhal Discharge Cures Colds Quickly

Poor remedies have given Catarrh the reputation of being incurable, but it is curable, easily and quickly, if the right method is employed. Snuffing a powder or ointment up the nose won't cure Catarrh, neither will tablets, douching, or stomach medicines cure. These treatments fail because they only affect local conditions, they do not remove the cause, which is germ-life established in the lungs, bronchial tubes, and nasal passages. Ordinary remedies do not reach these remote parts, but Catarrh-ozone does, for it is breathed through the inhaler into every air cell in the lungs, into every air passage in the head and throat. No matter where the Catarrh is Catarrh-ozone will reach it. It kills the germs, heals sore spots, clears the nose and throat instantly. Universally used; pleasant and clean; guaranteed to cure or money refunded.

Don't be an object of aversion to everyone you meet—get Catarrh-ozone today and use it regularly; it will cure your Catarrh, Bronchitis, Throat Trouble, spitting and gagging. Large size lasts two months, price \$1.00; smaller size 50c; sample size, 25c; at all dealers.

## When Meteors Hit the Earth

**Meteor Made a Hole Which Is 560 Feet Deep and Three-quarters of a Mile Across.**

The earth gains weight at the rate of about seventy pounds per minute. In a year the accumulation is 11,445 tons. This increase comes sifting down, mainly in the shape of fine dust from the meteors, which are constantly striking our atmosphere and getting burnt up into small particles. Sometimes a meteor comes along that is too big to burn up. Some years ago one exploded over Iowa and later there were picked up over 5,000 pieces, some running to 437 pounds in weight. The biggest meteor, that is known to have hit the earth fell at Coon Mountain, Arizona. It made a hole which even now is 560 feet deep and three-quarters of a mile across. The meteor itself is buried no one knows how far below.

**A Medical Need Supplied.**—When a medicine is found that not only acts upon the stomach, but is so composed of inert ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Parmenter's Vegetable Pills are of this character and are reliable pills. During the years that they have been in use they have established themselves as a safe medicine.

### Shape of the Head and Hair.

A Chinaman has a round head, and every hair on his head is shaped likewise. That is to say, a cross-section of the (as seen under the microscope) is circular. People of the white race have heads that are more or less oval in form, as hats show. The hairs of the head are likewise oval in section. The negro has an oblong head. Call it rather an oblong square. Each individual hair of his wool is oblong square in section. Which, in fact, is the reason why it kinks. Nobody knows why there should be this sort of correspondence between the shape of the head and the shape of the hair. It is just a fact in nature.

**Miller's Worm Powders** are a prompt relief from the attacks of worms in children. They are powerful in their action, and while leaving nothing to be desired as a warm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness and other ailments that follow disorders caused by worms in the stomach and bowels.

### Girls on the Farm.

Farming on the western prairies is great fun in the opinion of harvesting girls returning on the excursions after the completion of their work. City girls of various occupations, which kept them indoors the year round, saddled to a desk or switchboard, found enjoyable occupation in minding small babies, feeding large men, washing dishes and pitching hay, milking cows and wearing overalls, and the whole enterprise was in the nature of novel playmaking. Many of the girls were war-workers, having spent years in munition plants and as hand workers in the fields and proved their efficiency on Canadian farms. All were unanimous in their expression of determination to return to the same work next year.

## PALID CHEEKS AND DULL EYES

**Tell the Story of Watery Blood—How to Regain a Good Color and Health.**

To be run down in health and to lose their attractiveness is the double misfortune of many young girls. Their palid cheeks and dull eyes tell everyone that they are doomed to days of wretched headaches and are victims of breathlessness and bloodlessness. The anemic girl, if she neglects her health, may be a sufferer all her life; for an active happy woman cannot be developed out of a bloodless, consumptive looking girl, without the help of new, rich, red blood.

Pale, weak girls should take head. Bloodlessness must not be neglected. Plenty of good air, a nourishing diet and rest will help you, but the cure you need most promptly is new blood. Good new blood in abundance, such as makes all the difference between sound health and poor health in men and women, is supplied by Dr. Williams' Pink Pills. Their one mission is to make new blood which reaches every organ and every nerve in the body, bringing to anemic girls and women new color, bright eyes, an elastic step and a feeling of joy in living. The value of Dr. Williams' Pink Pills to young girls is shown by the cure of Miss Jessie Clarke, R.R. No. 1, Stevensville, Ont., who says: "Two years ago, while studying for the entrance examination, my health broke down and I fell away to a mere shadow of my former self. When the day for the examinations came, I should have been in bed instead of trying them, but I went on with the work and when through was almost on the verge of collapse. I thought that a rest would help me, but I did not regain my strength. Then my mother was advised to have me try Dr. Williams' Pink Pills, and after taking them for about a month I found myself restored to health, with good color and a change for the better, which people who knew me readily noticed. I am very thankful for what Dr. Williams' Pink Pills did for me, and hope my experience will benefit some other weak girl."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, postpaid, at 50 cents a box, or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Manitoba Wheat Yield.

The average yield of wheat in Manitoba for the year 1920 is fifteen bushels per acre, according to the final report of the Department of Agriculture for this province. The report also states that much fall plowing has been completed, and the land is in fine shape for next spring.

## Saskatchewan Farm Loan Bonds

Provincial Government to Raise \$3,500,000 From the Farmers.

Unique in the annals of government financing in Saskatchewan is the effort which is being made by the Provincial Government to raise \$3,500,000 from the farmers by the sale of debentures to provide funds for the Saskatchewan Farm Loan Board.

The board has up to date loaned out \$2,520,000 to farmers for development purposes on first mortgage security at a 6-1/2 per cent. interest, but these funds have been secured in the outside market.

A campaign, to close December 7, has been instituted to secure additional funds from the more wealthy farmers who became acquainted with the pleasures of coupon clipping as purchasers of Victory Bonds during the war. The farm loan debenture is issued in denominations from \$20 to \$1,000 and bears interest at 5 per cent, payable every six months, maturing in 30 years. An attractive feature of the bond is a provision for redemption, subject to three months' notice to the provincial treasurer.

### First Oil Locomotive.

The first oil-driven express on a British railway ran from London to Birmingham, Oct. 21. To the layman, the converted locomotive showed but little departure from the coal-consuming engine. The latter used 70 pounds of coal per mile, but since its conversion it burns only about 30 pounds of oil per mile, and does not emit smoke or cinders.

### French Flags to Fly Again.

The French flags, of the Garrison at Metz, which the Germans insisted should be handed over to them when the city fell on October 27, 1870, are to be handed back to France, under Article 245 of the Treaty of Versailles. As a number of the flags, which for more than forty-eight years hung in the church at Metz, were last year destroyed by German officers and students, it will be impossible to carry out the clause of the Treaty completely.

### Rural Route No. 1.

Mascouche, Quebec, Oct. 15, 1919. The Minard's Liniment People, Sirs—I feel that I should be doing a wrong in neglecting to write you. I have had four tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago, but they grew again till about three months ago I had one as large and shaped like a lady's thumb on the very place where my hair should be parted, and it was getting so embarrassing that it was a constant worry to me. About two months ago I got a bottle of your liniment for my tumors. Well, on the label good for tumors. Well, I tried it and kept at it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON. P.S.—I am a farmer and intend using Minard's Liniment on my mare for a strided wendon, and am hoping for same results.

I had for quite a long time been having trouble with my bowels which caused me to be nervous, and I do not know how it seemed to give me relief until I began taking 'Favorite Prescription.' The medicine gave me such wonderful relief that I am glad to commend it to others."—MRS. A. G. WILSON, 60 Broad St.

## NERVOUS AND RUN-DOWN

Brampton, Ont.—"A few years ago I was in a nervous and run-down condition and felt greatly in need of a tonic. A friend who was being helped by Dr. Pierce's Golden Medical Discovery advised me to try it, too. It helped me from the very start and eventually restored me to perfect health. I feel in a position to praise the Golden Medical Discovery very highly and take pleasure in recommending it to all those who are as ill as I was."—MRS. ESTHER PATTERSON.

Dr. Pierce's medicines are made of vegetable growths that nature surely intended for healthful food, and are gentle and safe for the most delicate woman in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, wild yam root, blue cohosh root, Oregon grape root and Viburnum. Women who take this standard, indigenous, palatable, and safe woman's tonic so good that druggists everywhere sell it in liquid or tablet form. It is in liquid or tablet form. ## CHINA'S CRY FOR HELP

Latest news from China indicate a much larger area famine stricken than was at first anticipated. Five Provinces are affected, in which Missionaries give heartrending descriptions of conditions. The present distress, keen as it is, is but a suggestion of the awful agony through which North China must pass before the Winter is over. The task of relief is so colossal that business men are considering what can be done to measure up to meet so appalling a calamity. It is being felt that the Dominion Government should take it up. Recent dispatches reveal a situation so terrible as to be almost incredible. One writer states: "It is not possible to exaggerate the present conditions in China."

The Government of China has sent the following message to the Chinese Consul-General at Ottawa: "Over one hundred thousand localities are affected, millions of people are destitute and dying of famine. This is the biggest famine seen for forty years. Relief fund is urgently needed." The American Ambassador at Peking has cabled similar reports, adding that an international committee composed of men from the various foreign Legations has been organized for relief work.

The Presbyterian Church in Canada has cabled two sums of \$5,000 each, but what is that among so many?

At a meeting of the local committee, held in Knox Church, Calgary, on the 8th instant, it was reported that \$200 had been subscribed in Alberta. It is felt that when the public are seized of the actual conditions a more generous response will be made. Contributions should be sent to T. Humphries, 902 Lancaster Building, Calgary.

## Heals Inflamed Nostrils, Stops Catarrhal Discharge Cures Colds Quickly

Poor remedies have given Catarrh the reputation of being incurable. But it is curable, easily and quickly, if the right method is employed. Snuffing a powder or ointment up the nose won't cure Catarrh, neither will turpentine, douching, or stomach medicines cure. These treatments fail because they only affect local conditions, they do not remove the cause, which is germ life established in the lungs, bronchia, tubes, and nasal passages. Ordinary remedies do not reach these remote parts, but Catarrh-ozone does, for it is breathed through the inhaler into every air cell in the lungs, into every air passage in the head and throat. No matter where the Catarrh is Catarrh-ozone will reach it. It kills the germs, heals sore spots, clears the nose and throat instantly. Universally used; pleasant and clean; guaranteed to cure or money refunded.

Don't be an object of aversion to everyone you meet—get Catarrh-ozone today and use it regularly; it will cure your Catarrh, Bronchitis, Throat Trouble, spitting and gagging. Large size lasts two months, price \$1.00; smaller size, 50c; sample size, 25c; at all dealers.

### Large Bridge in B.C.

Regarded as one of the largest bridges in the world and one of the engineering marvels of the century, the bridge over Deep Creek on the Pacific Great Eastern Railway, 1,200 feet long and 239 feet high, has reached completion. Throughout the course of construction not a single accident occurred.

### Aerial Route to Fort Norman.

Edmonton flyers are entering into negotiations for the establishment of an aerial service from Edmonton to the oil fields of Fort Norman on the Mackenzie River. The proposal calls for the establishment of landing stages at intervals along the route and the transportation, in the first instance before flying, of gasoline and other essentials for successful operation. As the crew flies, Fort Norman is situated 900 miles from Edmonton.

## "I Cannot Go"

**BILIOUS** headache spoils many an expected enjoyment.

When the condition of the liver is neglected, biliousness seems to become chronic and recurs every two or three weeks, with severe sick headaches.

Why not get right after this trouble and end it by using Dr. Chase's Kidney-Liver Pills to restore the health and activity of the liver. Constipation, indigestion, backache, headache, biliousness and kidney derangement soon disappear with the use of this walk-through medicine.

One pill a dose, 30 cts. a box, all dealers. An Edmonton, Sales & Co., Ltd., Toronto.

## When Meteors Hit the Earth

**Meteor Made a Hole Which Is 560 Feet Deep and Three-quarters of a Mile Across.**

The earth gains weight at the rate of about seventy pounds per minute. In a year the accumulation is 11,435 tons. This increase comes falling down, mainly in the shape of fine dust from the meteors, which are constantly striking out atmosphere and getting burnt up into small particles. Sometimes a meteor comes along that is too big to burn up. Some years ago one exploded over Iowa and later there were picked up over 5,000 pieces, some running to 437 pounds in weight. The biggest meteor, it is known to have hit the earth fell at Coon Mountain, Arizona. It made a hole which even now is 560 feet deep and three-quarters of a mile across. The meteor itself is buried no one knows how far below.

**A Medical Need Supplied.**—When a medicine is found that not only acts upon the stomach, but is so composed that certain ingredients of it pass unaltered through the stomach to find action in the bowels, then there is available a purgative and a cleanser of great effectiveness. Farmel's Vegetable Pills are of this character and are reliable pills. During the years that they have been in use they have established themselves as a safe medicine.

### Shape of the Head and Hair.

A Chinaman has a round head, and every hair on his head is shaped likewise. That is to say, a cross-section of it (as seen under the microscope) is circular. People of the white race have heads that are more or less oval in form, as hats show. The hairs of the head are likewise oval in section. The negro has an oblong head. Call it rather an oblong square. Each individual hair of his wool is oblong square in section. Which, in fact, is the reason why it kinks. Nobody knows why there should be this sort of correspondence between the shape of the head and the shape of the hair. It is just a fact in nature.

**Miller's Worm Powders** are a prompt relief from the attacks of worms in children. They are powerful in their action and while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness and other ailments that follow disorders caused by worms in the stomach and bowels.

**Grandma.**—Why do you insist upon having the bigger share of the pudding, Jimmy? Isn't your older brother entitled to it? **Small Boy.**—No, he isn't. He was eating pudding two years before I was born.

### Girls on the Farm.

Farming on the western prairies is great fun in the opinion of harvesting girls returning on the excursions after the completion of their work. City girls of various occupations, which kept them indoors the year round, saddled to a desk or switchboard, found enjoyable occupation in minding small babies, feeding large men, washing dishes and pitching hay, milking cows and wearing overalls, and the whole enterprise was in the nature of novel playmaking. Many of the girls were war-workers, having spent years in munition plants and as land workers in the fields and proved their efficiency on Canadian farms. All were unanimous in their expression of determination to return to the same work next year.

## PALLID CHEEKS AND DULL EYES

Tell the Story of Watery Blood—How to Regain a Good Color and Health.

To be run down in health and to lose their attractiveness is the double misfortune of many young girls. Their pallid cheeks and dull eyes tell everyone that they are doomed to days of wretched headaches and are victims of breathlessness and bloodlessness. The anaemic girl, if she neglects her health, may be a sufferer all her life; for an active happy woman cannot be developed out of a bloodless, consumptive looking girl, without the help of new, rich, red blood.

Pale, weak girls should take heed. Bloodlessness must not be neglected. Plenty of good air, a nourishing diet and rest will help you, but the cure you need most promptly is new blood. Good new blood is supplied by Dr. Williams' Pink Pills. Their one mission is to make new blood which reaches every organ and every nerve in the body, bringing to anaemic girls and women new color, bright eyes, an elastic step and a feeling of joy in living. The value of Dr. Williams' Pink Pills to young girls is shown by the cure of Miss Bessie Clarke, R.R. No. 1, Stevensville, Ont., who says: "Two years ago, while studying for the entrance examination, my health broke down and I fell away to mere shadow of my former self. When the day for the examinations came, I should have been in bed instead of trying them, but I went on with the work and when through was almost on the verge of collapse. I thought then that a rest would help me, but I did not regain my strength. Then my mother was advised to have me try Dr. Williams' Pink Pills, and after taking them for about a month I found myself restored to health, with good color and a change for the better, which people who knew me readily noticed. I am very thankful for what Dr. Williams' Pink Pills did for me, and hope my experience will benefit some other weak girl."

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail, postpaid, at 50 cents a box, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

### Manitoba Wheat Yield.

The average yield of wheat in Manitoba for the year 1920 is fifteen bushels per acre, according to the final report of the Department of Agriculture for this province. The report also states that much fall plowing has been completed, and the land is in fine shape for next spring.

## Saskatchewan Farm Loan Bonds

Provincial Government to Raise \$3,500,000 From the Farmers

Unique in the annals of government financing in Saskatchewan is the effort which is being made by the Provincial Government to raise \$3,500,000 from the farmers by the sale of debentures to provide funds for the Saskatchewan Farm Loan Board.

The board has up to date loaned out \$5,250,000 to farmers for developed purposes on first mortgage security at 6 1/2 per cent. interest, but these funds have been secured in the outside market. A campaign, to close December 7, has been instituted to secure additional funds from the more wealthy farmers who became acquainted with the pleasures of coupon clipping as purchasers of Victory Bonds during the war. The farm loan debenture is issued in denominations from \$20 to \$1,000 and bears interest at 5 per cent, payable every six months, maturing in 30 years. An attractive feature of the bond is a provision for redemption, subject to three months' notice to the provincial treasurer.

## Minard's Liniment For Colds, Etc.

### First Oil Locomotive.

The first oil-driven express on a British railway ran from London to Birmingham, Oct. 21. To the layman, the converted locomotive showed but little departure from the coal-consuming engine. The latter used 20 pounds of coal per mile, but since its conversion it burns only about 30 pounds of oil per mile, and does not emit smoke or cinders.

Recognized as a leading specific for the destruction of worms, Mothers' Graves' Worm Extirminator has proved a boon to suffering children everywhere. It seldom fails.

### French Flags to Fly Again.

The French flags, of the Garrison at Metz, which the Germans insisted should be handed over to them when the city fell on October 27, 1870, are to be handed back to France, under Article 245 of the Treaty of Versailles. As a number of the flags, which for more than forty-eight years hung in the church at Potsdam, were last year destroyed by German officers and students, it will be impossible to carry out the clause of the Treaty completely.

### Rural Route No. 1.

Masconoch, Ontario, Oct. 15, 1919. The Minard's Liniment People, Sirs—I feel that I should be doing a wrong if I neglected to write you. I have had tumors growing on my head for years. I had them cut off by a surgeon about fifteen years ago, but they grew again till about three months ago I had one as large and shaped like a lady's thimble on the very place where my hair should be parted, and it was getting so embarrassing in public that it was a constant worry to me. About three months ago I got a bottle of your liniment for another purpose and saw the label good for tumors. Well, I tried it and kept at it for exactly two months, with the result that it has entirely removed all trace of the tumor, and were it not that they had been cut fifteen years ago, no mark would be seen. I have not been asked for this testimonial and you can use it as you see fit.

(Signed) FRED C. ROBINSON. P.S.—I am a farmer and intend using Minard's Liniment on my mare for a strained tendon, and am hoping for some results.

FRED C. R.

### Prehistoric Monsters From Red Deer.

Another shipment of the bones of prehistoric monsters taken from the fossil beds of the Red Deer River has been shipped east, representing the summer's work of a geological party sent out by the Royal Ontario Museum. Six dinosaurs were excavated by the party, one of the specimens brought to light being pronounced the only one of its kind known to science, its entire length being between twenty-five and thirty feet.

Many superstitious gamblers consider it unlucky to play cards on a table that is not covered with cloth.

**ECZEMA**  
You are not alone in suffering from this skin disease. It is a common complaint, and it can be cured. Dr. Williams' Pink Pills will cure it. It relieves all itching and gradually restores the skin to its normal condition. Dr. Williams' Pink Pills are sold by all druggists and chemists, or by mail, postpaid, at 50 cents a box, or six boxes for \$2.50, from Dr. Williams' Medicine Co., Brockville, Ont.

## A Woman's Trouble

Stratford, Ont.—"I do think Dr. Pierce's Favorite Prescription one of the best medicines I have ever known for the ailments of women. I had for quite a long time been having woman's trouble, which caused me to become ill, run down, weak and nervous. I tried everything but nothing seemed to give me relief until I began taking 'Favorite Prescription.' This medicine gave me such wonderful relief that I am glad to commend it to others."—MRS. A. GODWIN, 80 Broad St.

**NERVOUS AND RUN-DOWN**  
Brampton, Ont.—"A few years ago I was in a nervous and run-down condition and felt greatly in need of a tonic. A friend who was helped by Dr. Pierce's Golden Medical Discovery advised me to try it, too. It helped me from the very start and eventually restored me to perfect health. I feel in a position to praise the 'Golden Medical Discovery' very highly and take pleasure in recommending it to all those who are ill or nervous, run-down, etc."—MRS. ESTHER PEATSON.

Dr. Pierce's medicine are made of vegetable growths that nature surely intended for backache, headache, pains, irregularities, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, wild yam root, blue cohosh root, Oregon grape root and Viburnum. Women who take this standard remedy know that Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in liquid or tablet form. It is without equal.

The pay of cabinet ministers under the "Irish Republican Government" is fixed at \$875 a year.

## CHINA'S CRY FOR HELP

Latest news from China indicate a  
much larger area—famine stricken than  
was at first anticipated. Five Provinces  
are affected, in which millions are  
heartrending descriptions of conditions.  
The present distress, keen as it is, is but  
a suggestion of the awful agony through  
which North China must pass before the  
Winter is over. The task of relief is so  
colossal that business men are considering  
what can be done to measure up to meet  
so appalling a calamity. It is being felt  
that the Dominion Government should take  
a situation so terrible as to be almost incred-  
ible. One writer states: "It is not possi-  
ble to exaggerate the present conditions  
in China."

The Government of China has sent the  
following message to the Chinese Consul-  
General at Ottawa: "Over one hundred  
thousand localities are affected, millions  
of people are destitute and dying of fam-  
ine. This is the biggest famine seen for  
forty years. Relief fund is urgently need-  
ed." The American Ambassador at Peking  
has cabled similar reports, adding that  
an international committee composed of  
men from the various foreign Legations  
has been organized for relief work.

The Presbyterian Church in Canada  
has cabled two sums of \$5,000 each, but  
what is that among so many?

At a meeting of the local committee,  
held in Knox Church, Calgary, on the  
6th instant, it was reported that \$200 had  
been subscribed in Alberta. It is felt  
that when the public are seized of the  
actual conditions a more generous res-  
ponse will be made. Contributions should  
be sent to T. Humphries, 602 Lancaster  
Building, Calgary.
